

EARLY MORNING FISHING TRIP
21/5/2011

Description

A day out in the open sea of Cyprus is definitely an experience not to be missed. The Cypriot Seas are usually quite calm and thus this tour is offered even for the less adventurous. Most of the work will be done by the fishermen but the sense of team playing will be evident throughout.

Our fishing outlet will be the small port located on the waterfront of Coral Beach Resort. Our trip will start early in the morning when the guests will be divided into three or four small groups and be embarked in small fishing boats escorted by local fishermen.

The boats will then head towards the open sea for deep sea fishing. The professional fishermen will introduce you to the profession of the fisherman, explain and give instructions on how to succeed in getting a good catch.

Fishing rods, baits and relevant equipment will be provided by fishermen. During your waiting for the fish to bite, you will have the time to have some breakfast and coffee in the open sea which must be a unique experience.

Hopefully, the day catch will include tuna and any other kind of fish available during the season. By the end of the trip, you will be expected to have learnt some facts and tips on fishing in the Cypriot seas. One thing is for sure: that you will be amazed by the crystal clear blue waters and the ideal weather that will accompany you during your fishing trip.

Participation fee is only €85 and is inclusive of:

- Charter of fishing boats with fishermen
- Breakfast bites and coffee
- All necessary equipment
- Standby speed boat for emergencies
- V.A.T. at 15% and taxes

Please note that there will be a restricted number of seats and you are therefore kindly requested to reserve a place the soonest through www.easyconferences.org .
